

GEOFF CORDNER

geoffcordner@gmail.com – 323-528-2488 – Los Angeles, CA, 90042

I am a software developer and ecommerce specialist with over 15 years of experience building clean, fast, responsive websites that look great and perform well in all environments. I deliver great work on schedule, and care deeply about my work. A WordPress specialist, I have over 10 years of experience as a WordPress and PHP developer. I am a strong supporter of A11y and believe in an internet accessible to all. Part of every day should be dedicated to learning something new.

EXPERIENCE

Full Stack Web Developer (March 2021 – December 2021) Social Driver, as Contractor.

I was contracted as a front-end/full stack developer to build and launch two heavily customized WordPress websites for prominent education & health non profits;

- Built custom themes, custom plugins, front-end and back-end, for two large scale health and education sites;
- Extended WordPress CMS, building complex backend systems using custom post types, custom fields using PHP;
- Analyze Sketch mockups and Invision prototypes to develop Live Websites using HTML/CSS/SASS/JS/PHP;
- Migrated and imported data from clients' previous websites;
- Set up tooling for compiling using terminal, NPM, Grunt and/or Gulp and Integrate CI/CD using Codeship;

- Develop, QA, and Review websites so they are accessible per 508 Accessibility, Print, and Responsive Design Standards.

Web Developer (January 2020 – Present) as Freelance.

- Designed and developed custom WordPress themes;
- Helped design and build a network of news and culture websites for an established journalism cooperative (The Brickhouse Cooperative);
- Utilized WordPress, WordPress Multisites, and WooCommerce to provide front-end and back-end development services;
- Performed testing and analysis of website design to check for optimal clarity, responsiveness, effectiveness, GDPR compliance, and ADA accessibility compliance.

Full Stack, Lead Developer (November 2010 – February 2021) at Stockroom Inc.

- Supervised and led a team of remote developers building a Magento PHP e-commerce platform for an ecommerce company with over 8,000 SKUS;
- Developed and maintained a network of informational/marketing WordPress sites;
- Interfaced with front-end and back-end development teams to develop unified product, smoothing out coding conflicts before problems arose;
- Migrated 20 years of product, customer, order data, purchasing, shipping, inventory, supplier, and production data from legacy systems to new Magento website & OfBiz ERP system;
- Collaborated with stakeholders and customers to gather requirements during development of a customized ERP system & Magento ecommerce website;
- Identified and fixed flaw in product receiving procedures that had resulted in overstatement of profit, allowing company to recover millions in overpaid taxes;

Front-End Developer (November 2005 – November 2010) at Stockroom Inc

- Maintained front end and back end code for an ecommerce network built in ASP.NET along with 4 non-ecommerce, informational WordPress sites;
- Managed full-cycle design tasks, handling all phases from conception to completion while maintaining guidelines throughout;
- Coded websites using HTML, CSS, JavaScript, PHP, .NET and jQuery;
- Provided front-end website development using WordPress, Hubspot, Ablecommerce, ASP.NET, Visual Basic, and other editing software.
